EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS   Remote
Full Stack Web Developer   Nov 2022 – Present

Todo-List — With the urge to solve problems for over 1000 people in my locality and a creative mind I developed a project that helps to keep track of daily activity with features such as adding activity, crossing–out, deleting, and clearing executed activity. Here is a link to a [live demo](#).
- Built with: HTML, CSS, JAVASCRIPT, and GitHub

Car-Rental Web Application — I collaborated with a team of 3 other developers to create a user-friendly web application that allows users to effortlessly browse and rent cars for their desired duration. We utilized our problem-solving skills, effective communication, and creative minds to address bugs and technical challenges, ensuring that the application met the project requirements. Here is a link to a [live demo](#).
- Built with: REACT, RUBY ON RAILS, CSS, JWT, REDUX, and GitHub

SPACE X Application — A web project created to offer users valuable information about the SpaceX team, space travel opportunities, and the latest breakthroughs in space technology. With its efficient and user-friendly interface, the app ensures quick access to the desired content, making it a reliable resource for thousands of space enthusiasts. Here is a link to a [live demo](#).
- Built with: NEXTJS and CSS

MICROVERSE   Remote
Mentor (Volunteer)   Nov 2022 – Present
- Mentoring over 15 junior web developers, providing technical support through code reviews.
- Propose improvements to code organization to improve code quality and 90% overall performance.
- Provide advice and tips on how to maintain motivation to maintain longevity in the program.

CAMBRIDGE COLLEGE   Ogun State, Nigeria
Teacher   Feb 2021– Dec 2021
- Spearheaded the teaching and mentoring of a class comprising over 50 students, demonstrating exceptional knowledge management and effective communication skills.
- Simplified and communicated complex documentation and tasks to co-workers and student parents, fostering an easy-to-understand environment.
- Cultivated a deep understanding and dexterity in interacting with individuals from diverse family backgrounds and ethnic groups, promoting an inclusive environment

---

EDUCATION

MICROVERSE   Nov 2022 – August 2023
Remote Full Stack Web Development Program, Full-Time
- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while building projects.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow.

OLABISI ONABANJO UNIVERSITY   Nov 2015 – September 2019
BSc, Human Anatomy
- Human relations.
- computer and technology knowledge.
- Department recommendation Letter: due to excellent performance for the semester.
